Exercise   JPEG   对응됨

Q : 框图

Solution

Encode bitstream → Frame decoder → Huffman decoding → Differential decoding → Dequantizer
                                                    → Run-length decoding →

Huffman decoding ← table

Dequantizer ← table

→ Inverse DCT → Image buffer → Memory or Video RAM
